Safe & Effective Use of Air Rifles: £150 + VAT

The aim of this course is to train technicians and their managers on the safe, effective and legal use of air guns for bird control. Theory will be covered in the morning session, with a shooting practical in the afternoon. The course starts with the basics for newcomers, but also comprehensively covers a lot of procedures and techniques for the experienced shooter.

COURSE CONTENTS

BIRD IDENTIFICATION

Bird Control Legislation, Air Rifle Legislation and Safety Guidelines, Equipment: Selection and maintenance

PRINCIPLES OF SHOOTING

Ballistics, trajectories, muzzle velocities and zeroing

ORGANISING SHOOTS

Preparation, Safety Guidelines and Police Liaison

CHRONOGRAPH TESTING

An opportunity to have your Air Rifles inspected and tested

PRACTICAL

Marksman techniques

Air Rifles will be provided, although we do advise delegates to bring their own for use and testing. Outdoor clothing and shooting safety glasses will be required.
