 Net – 19mm, 28mm, 50mm or 75mm
 Net fixed on with hog rings

Light Pressure – occasional look out spot

Medium Pressure

Day perch

Nest site

Sheltered sites

Heavy pressure

Night roost

What birds are using a particular part of a building for will determine how motivated they will be to try and regain that area after proofing ('Pressure'), and therefore what proofing systems can be used.

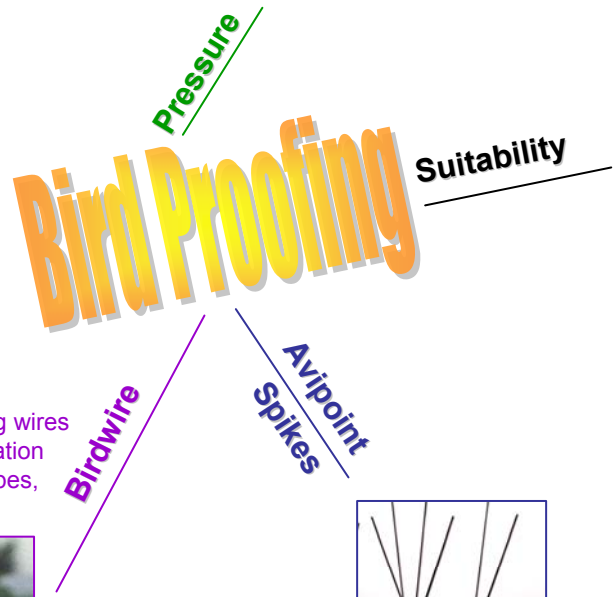

All Network products humane
 For durability select SS fixings
 All systems fairly discreet
 Skilled installation

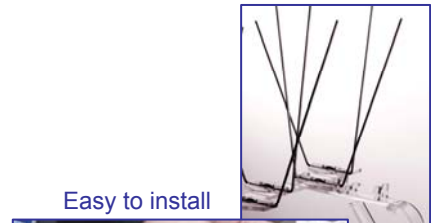

Will proof from very small holes or ledges up to vast areas

Horizontal sprung wires for Skilled installation above ledges, pipes, signs etc

| Species | Pressure | Avipoint P14 | Avipoint P20 | Avipoint P32 | Avipoint G20 | Chimney Spike | Network Bird Net | Network Bird Wire | Daddi Long Legs | Weldmesh |

Easy to install

Avipoint is normally glued in place.
 Or use clips to fix e.g. windows, gutters, beams

Products vary e.g.: thickness, strength, angle, spacing, height, material of wires; width & material of base, so select accordingly
